In today's rapidly evolving world, skills like critical and creative thinking, problem solving, collaboration and communication are no longer just academic buzzwords — they are the essential tools for navigating the 21st century.

At <sup>the</sup> next plus learning.

the different colours

Imperial

卷之三

Exams are focused on rote memorization,  
neglecting holistic assessment of a student's  
capabilities.

— that are vital for success in diverse academic and practical contexts.

WE SEE (keep everything same)

THE PROBLEMS WE SEE  
some colour  
in above heading.

use or used

which

unresolved doubt ~~that~~ lead to frustration  
and a decrease <sup>in</sup> engagement with the study material

Image of the  
problem that  
we see

The persistence of unresolved doubt significantly  
impacts the learning experience leading to  
heightened the frustration

and sustained engagement with the  
study material.

## THE PROBLEMS WE SEE. (same as above)

(5)

Three-fourths of children with special needs in India who are five years old do not attend any educational institution.

In India, a concern over trend has emerged —

that we  
see

— have equal access to  
quality education from the early years of their life.

## THE PROBLEMS WE SEE

⑥

The problems  
we see

For aspiring NEET doctors, affordable,  
topnotch learning centres are more like  
unicorns than reality.

For aspiring NEET doctors, the quest —

— ensuring that the pursuit  
of becoming a doctor is not hindered by financial  
constraints

## THE SOLUTIONS WE GIVE (Blue theorem problems)

Unlike traditional exam that predominantly rely on rote memorization Competency Based Assessment test (CBA) aim to provide a more holistic and nuanced evaluation of students' capabilities

we give

Competency based assessment focus on identifying

on the ever-evolving landscape of higher education and the professional world.

## THE SOLUTIONS WE GIVE
